1935			- +	(later date)			1/4"						
last quarter of year													

THESE ARE THE DATE CODE CHARTS FOR EASTMAN KODAK MOTION PICTURE FILM AND DUPONT FILM. READ THE SYMBOLS ON THE EDGE MARKINGS OF THE FILM FROM LEFT TO RIGHT, AND COMPARE TO THE CHART. THIS WILL TELL YOU WHEN THE FILM WAS MANUFACTURED AND WHERE. WHITE PRINTING TELLS THE INFORMATION ABOUT THE NEGATIVE, AND BLACK PRINTING TELLS THE INFORMATION ABOUT THE POSITIVE PRINT. EXAMPLE: THE BLACK PRINTING READING LEFT TO RIGHT ON A PRINT OF "THE PRODUCERS" IS "++". THE CHART TELLS US THAT THIS IS A PRINT STRUCK IN 1968, WHICH INDEED IS WHEN THE FILM WAS RELEASED. FOR FUJI FILM, THERE IS A 4 DIGIT CODE ON THE PERFORATIONS. THE FIRST 2 NUMBERS ARE THE YEAR THE FILM WAS MANUFACTURED. FOR EXAMPLE: "8 3 J M" IS A PRINT MANUFACTURED IN 1983.

*A SMALL VERTICAL BAR IS SPACED BETWEEN THE WORDS "EASTMAN" OR "KODAK", AND "NITRATE" OR "SAFETY". THE YEAR SYMBOL USUALLY FOLLOWS THIS BAR. THE DISTANCE BETWEEN THE BAR AND YEAR SYMBOLS INDICATES THE FIRST OR SECOND HALF OF THE YEAR.
